

財團法人農業科技研究院 可移轉技術簡介

技術名稱 Technology Term	木鱨果機能商品化運用套組
	Adaptation Portfolio of Commercialized Gac Fruits Functions
技術發明人 Technology Representative	農科院何緯倫、台東區農業改良場陳盈方
	Wei-Lun Ho, Agricultural Technology Research Institute Yin-Fang Chen, Taitung District Agriculture Research and Extension Station
技術應用領域 Technology Field	加工食品、機能性食品原料
	Processed Food, Functional Food ingredient
技術簡介 Technology Description	選用國產栽培本土品種木鱨果，作為機能性原料生產機能性飲品技術。通過最佳化生產飲品製程、機能性成分分析(茄紅素與類胡蘿蔔素)、專利佈局與分析以及後續行銷推廣協助之一系列服務套組。本機能性飲品原料或產品配方可以委託量產生產。
	Selected from locally produced Gac Fruits, being used as raw materials on technology producing functional beverage. By taking serial-service-package including optimizing beverage processing procedure, functional components analysis (Lycopene and Cerotenoid), patenting strategy and following marketing promotion assistance, the functional beverage raw material or the product formula is prepared for entrusted mass production.
授權方式 Agreement Term	5 年非專屬授權
	授權地區為台灣製造、販賣、使用及出口 Non-Exclusive License Agreement
技轉相關 圖/表	無
